Wholesale and Retail Price List for Fall and Winter
1924-1925

Please Read Carefully

All stock is offered and orders accepted subject to prior sale or advance in price, in which event money will be refunded.

Reference: First National Bank of Attleboro, Mass.

I exercise the greatest care to have every variety true to name, and while I do not guarantee the crop, I will replace free of charge or refund price paid on any bulbs that prove untrue to name.

TERMS: Cash or equivalent with order. If desired 25% with order, balance C. O. D. for Spring delivery.

All stock is graded standard sizes. Six will be sold at dozen rate, 25 at 100 rate, 250 at 1,000 rate.

I do not substitute without permission, but give the grower a little leeway as to sizes, as I may be out of size ordered, but may be able to give good value of other sizes that will do just as well and save correspondence.

My stock is limited on some varieties and sizes, but if stock is wanted of sizes not listed, write me as I no doubt have a few. Also I have small lots of many varieties not listed, some new choice Duner and Kunder varieties among them. Correspondence solicited.

Postage is paid on each and dozen lots, larger amounts at purchaser's expense.

Varieties marked with a * can be furnished in 1,000 lots of sizes 1 and 2 and bulblets by the peck and bushel

White Butterfly, large white.....	.25	2.50			15.00	10.00	8.00	6.00	1.50	5.00	

Just a Few Cultural Notes

The Gladiolus are so easy to grow that they may be planted anywhere so long as they are in the sun, but they will not do well in any shade. Don't try it.

Plant any time after the middle of April to the middle of June in any manner that best suits your plot of ground. Plant from 2 to 5 inches deep, the larger the bulb the deeper it should be planted. It stands up better.

Now start the cultivator. The more the soil is kept stirred when not too wet, the better it conserves the moisture and your plants will do better.

The Gladioli will take a lot of water at blooming time. If you are in a position to water them at that time, do so. If not, they will do fairly well without, by keeping the soil well stirred up.

When cutting the flower keep as many leaves as possible on the plant to mature the bulb. Too low cutting weakens the bulb.

When digging, cut the stalk close to the bulb and dry well. When well dried and cleaned, store in cellar away from the furnace. If near to furnace, keep dish of water near them.

The flower of the Gladioli is the finest for vases for the sick room, hospitals, churches, cemetery and decorations of all kinds. Use them freely.

The flower grower is one of the best papers printed on Flower Growing. It is published monthly by Madison Cooper, Calcium, N. Y. Price \$2.00 per year.

Become a member of the American Gladioli Society. It devotes its entire attention to the interests of the Gladioli and growers of the same over the entire country. Annual dues are \$2.00, payable to the secretary, John C. Davis, Rochester, N. Y.
